Breathe New Life Into Your Beechjet

Introducing Nextant's **Exclusive
5400 Hour TBO Extension**
along with Pro Line 21™ Upgrade

Program Summary

- 5400 hour TBO extension on engines
 - 3 year avionics warranty
- Easy solution to ADS- B mandate obstacles
- Increases the resale value of your Beechjet from \$500,000 to \$725,000

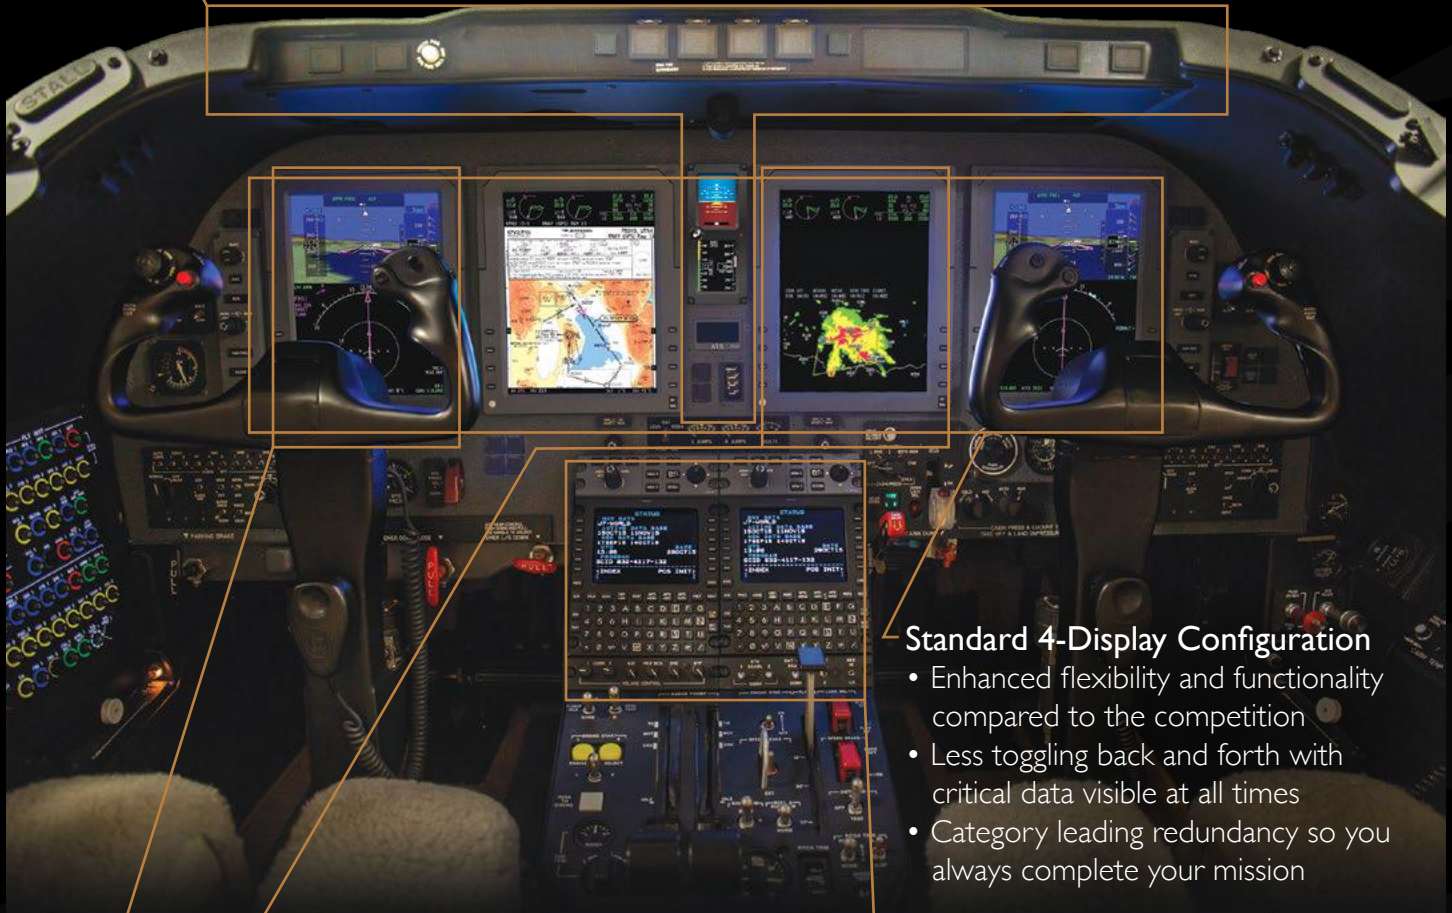

Beechjet 400A/XP Pro Line 21™ Upgrade (Nextant 400XTi Cockpit)

The Professional Pilot's Flight Deck of Choice

- 4,600 business aircraft - the gold standard
- Proven technology for today and decades to come
- Perfect combination of feature rich technology, enhanced functionality, and exceptional feature-rich value

Glare Shield and Digital Standby

- Evolution of "Dark" Cockpit technology only available with the Pro Line 21 Solution
- Minimal distraction at eye level for the flight crew

Standard 4-Display Configuration

- Enhanced flexibility and functionality compared to the competition
- Less toggling back and forth with critical data visible at all times
- Category leading redundancy so you always complete your mission

XM Weather

- Unmatched graphics and color to display strategic weather information

Updated FMS 6200 System

- Dual FMS Standard
- Fully Integrated Radio Tuning

The Pro Line 21 Synthetic Vision System (SVS) ›

- Improves orientation with airports and surrounding terrain
- Exceptional situational awareness in low visibility and unfamiliar territory beginning with take-off roll, to full stop landing
- Not influenced by atmospheric conditions

PRO LINE 21™ COCKPIT UPGRADE ALONG WITH 5400 HOUR TBO EXTENSION

Contact us to lock in your Beechjet today and save over \$210,000

Why take advantage of this program?

- Total package costs less than Engine Overhaul alone
- Bundled pricing reduces your overall cost, saving you up to \$210,000
- Increases the resale value of your Beechjet from \$500,000 to \$725,000
- Makes your Beechjet ADS-B compliant, solving mandate issues
- Flexible scheduling, able to upgrade Pro Line 21™ first and complete Engine Extension later

Engine Extension Program

\$125,000*

- 5400TBO extension (Adds 1800 hours to current TBO, extending TBO to 5400)
- Includes price of standard Hot Section Inspection and all normal associated hardware & consumables
- Extension only valid with Pro Line 21™ upgrade
 - Cockpit now comes with 3 year warranty on all new and retained Rockwell Collins equipment
 - CASP contract also includes Rockwell Collins database subscriptions for full time of warranty
- FAA STC extension program is automatically transferred if the aircraft sells
- HSI protects against failures to HT Blades caused by rub and damage from bad fuel nozzles
- Compliant with insurance policies

Standard Configuration Includes

\$424,950

- 4 LCD Displays (2 MFD, 2 PFD's) All Common Part Numbers
- Dual AHRS 3000A
- GPS 4000S
- ADS-B Out, Version 2 (DO-260B)
- WAAS/LPV
- TAWS-A
- IFIS Electronic Charts with Enhanced Maps
- Dual CDU-6200 (with integrated radio tuning)
- Synthetic Vision System (SVS)
- Standby 3:1 Instrument Upgrade
- All new, LED Master Caution/Master Warning Panel

Other Available Options

- XM Weather (universal also available)
- Second GPS
- Glare Shield Dark Cockpit Upgrade
- CASP contract to extended warranty an additional 2 years for one-time fee of \$30,000

(Pricing Available Upon Request)

*Depending on condition of engines
